

67th ANNUAL
Jewel Ball

THE SAN FRANCISCO AUXILIARY FOR CHILDREN
Benefiting Lucile Packard Children's Hospital Stanford

2019 Fund - A - Need CARING FOR HEARTS

The 2019 Auxiliaries' Special Project will provide funding for an online library of videos and print materials to help families of prenatal and newly diagnosed babies and children with chronic and congenital heart defects. These materials will help guide parents in the care and nurturing of their children with CDCs after hospital discharge. When parents learn, as early as 20 weeks of pregnancy, that the child they anticipated with such joy is affected by a heart defect, they are thrown abruptly into a world of the unknown. Families leave the doctor visit with various levels of understanding about their child's future.

The Caring For Hearts project will allow parents and caregivers to learn at their own pace and re-visit topics when the need arises. These materials will empower them to handle simple non-life-threatening occurrences such as re-inserting dislodged tubing. The aim is to decrease the number of re-admittances to the hospital and reduce stress from families caring for a congenital heart defect.
